Northeast Georgia...

Roads Closed in Northeast Georgia Due to Winter Weather

What:

Snow in Northeast Georgia has caused Georgia DOT crews to treat several state routes in the region with a salt and gravel mixture. Crews will continue to monitor road conditions in Northeast Georgia and treat as needed. The wintry precipitation has also caused some road closures in the region. The roads will remain closed until the winter event is over.

Where:

Road Closures

SR 384/ Richard B. Russell Scenic Highway in Blairsville (Union County)
SR 180 SPUR in Blairsville (Union County)

Roads Treated with Salt and Gravel

SR 183 in Dawson County
SR 129 in White County
SR 17 in Habersham and Union counties
SR 180 Union and White counties
SR 60 Union and White counties
SR 2 in Rabun, Union, and Townes County

Advisory:

Motorists traveling in Northeast Georgia should give Georgia DOT salt and gravel trucks enough room to allow crews to spread the salt and gravel mixture on the road. Motorists should not travel on the closed roads; instead, motorists should seek alternate routes.
